Parent Internet Safety Workshop
Internet Safety Presentation

A website has been created to accompany this Internet Safety Workshop for Parents:

http://teachers.westport.k12.ct.us/internetsafety

We encourage you to access the presentation for viewing and further exploration. It contains most of the links to the sites shown during the presentation, as well as many related websites used as resources. The handouts are available electronically.

Also accessible from the District website:

Parents Menu → Parent Presentations → Internet Safety Resources

Use a QR code reader from a Smart Phone to access the website or the presentation.
